KOKOMO TEMPERANCE CRUSADERS WIN A NOTABLE VICTORY.

Tippecanoe's Anti-Saloon Fight-Mrs. Duhme's Northern Indiana Lands-Protest Against a Street Fair.

Special to the Indianapolis Journal. KOKOMO, Ind., July 3.-The July fight against the Kokomo saloons by the crusaders led by Miss Carrie Styr, closed tonight with the filing of two blanket remonstrances that will knock eight of the nine applicants in the Second, Third and Fourth wards. In the Second ward Thomas Fisher was put out by a majority of seven voters and the Third ward applicants, W. W. Sewell, Charles Weser, Frank Kirby, Harry Jacks, Thomas Kane, William Hancock and

G. Vanderbush were defeated by eight voters. In the Fourth ward, where the remonstrants won last month, the saloons won this time. The Fifth ward has been dry two years. The remonstrance was not filed in the First ward. The big fight was in the Third, and the temperance people won by a close margin.

In all, since the fight began in February, the blanket has smothered about thirty applicants. The antis will have a big celebration at the city park to-morrow over their victory. The Rev. George K. Stewart, of Tennessee, will be chief orator.

Marion's Anti-Saloon War.

Special to the Indianapolis Journal. MARION, Ind., July 3.-The fight between the saloon men and the remonstrators in the Fourth ward is again on in force and both sides are extremely active. To-day the power of attorney vested in those who signed the remonstrance which knocked John Beggerly out of a liquor license was withdrawn by over two hundred of those whose names were attached to that paper, leaving about five hundred of the original signers. It is stated that only 176 names are required to be withdrawn in order to render that remonstrance useless as against paper will be filed with the county auditor names to make up the difference.

Many Names Withdrawn. Special to the Indianapolis Journal.

LAFAYETTE, Ind., July 3 .- Continuing their determined crusade against liquor in Tippecanoe county Harry Shafer's band of temperance workers this afternoon filed two remonstrances against saloon proprietors in Washington and Randolph townships. The Randolph remonstrance is against Monte C. Weaver, of Buck Creek, and the one from Washington is against John Wells, of Romney. Later this afternoon thirty-one names were withdrawn from the Buck Creek remonstrance, which will leave it without a majority. The other remonstrance has enough names to defeat the application. The commissioners will meet Monday to decide the contest.

North Manchester Remonstrances.

special to the Indianapolis Journal. WABASH, Ind., July 3.-Blanket remonstrances were filed to-day against A. M. Parmenter, J. W. Sisk and Gustav Pupke, of North Manchester, who are applying for license to sell liquor at that place. Though Chester is second in the county only to this township in population, a majority of the signatures of voters have been secured to a blanket remonstrance, and the indications are all three of the applications will be defeated in Commissioners' Court next Monday.

The court deferred judgment. May Be Forced to Sell.

Special to the Indianapolis Journal. LAFAYETTE, Ind., July 3 .- When Mrs. Charles H. Duhme is compelled to account for the money of Moses Fowler Chase now in her possession, as ordered by the Federal Court, she may be forced to sell some of her valuable land in Benton county. Such a proceeding would be welcomed by the renters there and would be a boon to hundreds in Fowler and Benton county in general. Her holdings of about 4,500 acres of grain land might then be divided into small farms of eighty, 160 and 320-acre plats and a race of independent land owners take the place of those who now pay rent. It is argued that the independent farmer would take a greater interest in the land and work it to a greater advantage. The Duhme tract remains intact as inherited from the estate of Moses Fowler.

They came with a rush in mass formation, and tackled the man who gives the application blanks: They were all Bostonians, students at Harvard, and sons of wealthy men. They were traveling incognito, and wore rough clothes and battered hats. They had bummed their way to Kansas City with plenty of money in their pockets. They spoke freely of everything except their identities. On this subject they kept mum. "We harvest wheat, drive wagons, carry water, eat bacon and corn bread with the rest of them. It was found beside his dead body by revenue cutter officers and covers a period of four months from Oct. 4, 1902, down to the following February, when in pencil faintly traced, opposite the entries of Feb. 3 and 4 are the words: "Death at last. New Scheme for Exterminating Pestiferous Insects.

BOSTON, Mass., July 3.-The Brookline Board of Health, which is systematically exterminating mosquitoes by means of kerosene oil, is now about to take up a suggestion calling attention to a new process for lessening the evil by means of musical sounds. The discoverer of the new process says: "It has been found that practical application has been effected by raising to a great number of vibrations per second the particular note to which the mosquito is most sensitively attuned. This intensified note produced by sudden electrical impulse upon a musical instrument causes every mosquito near to plunge headlong to the instrument and die."

greatly interested in a report, communicated to the Viennese Society of Physicians and read at a recent meeting of the Imperial Academy of Science, to the effect that a long-standing case of cancer was cured by radium rays at the clinic of the late Professor Gussenbauer. The patient, who was sixty-one years of age, had long suffered from cancer of the palate and lip and had repeatedly been operated upon fruitlessly. In the autumn of 1902, when the physicians of the Viennese hospital declared it was absolutely useless to operate again, one physician determined as a last resort to try radium rays and treated the afflicted parts by exposing them to the light of radium bromide, the strongest radium preparation in existence. He was rewarded by a gradual and complete disappearance of the tumors. Physicians at the same meeting reported that radium rays had cured a case of melanosarcoma (a tumor containing a black or other dark-colored matter), and several cases of red mole.
